

### **Boiler/Burner Field Service Apprentice**

Cleveland, Ohio based boiler/burner service company has an opening for a full-time Field Service Apprentice.

The ideal candidate must be currently enrolled in or completed vocational or technical training such as TRI-C's UTC Applied Industrial Maintenance Technology Course, have a valid driver's license, and high school diploma.

The applicant must also possess a positive attitude and desire to be part of a winning team, be able to follow schematics, piping diagrams, and blueprints, travel occasionally to out of state customer sites, and be flexible to work overtime/weekends as necessary. The ability to crawl into confined spaces, climb ladders and scaffolds and to lift and/or move up to 100 pounds is also a requirement.

Training will be provided on the service of commercial / industrial boiler and burner systems. This includes natural gas and fuel oil combustion testing, adjusting of the fuel/air ratio on various boilers, burners, ovens, and incinerators. Candidate will also be trained in troubleshooting and maintaining industrial/commercial steam and hot water boilers, boiler room operation, and auxiliary equipment.
