

Boiler/Burner Field Service Technician

Summary of Job Responsibilities: Cleveland, Ohio based boiler/burner service company has an opening for a full-time Field Service Technician. This position requires field service on commercial / industrial boiler and burner systems in Northern Ohio. This includes natural gas and fuel oil combustion testing, adjusting of the fuel/air ratio on various boilers, burners, ovens, and incinerators, while using an electronic combustion analyzer in addition to other customer boiler service needs.

SPECIFIC RESPONSIBILITIES

- Desirable candidate should possess specific knowledge of troubleshooting and maintaining industrial/commercial steam and hot water boilers, boiler room operation, and auxiliary equipment.
- Responsible for retrofit and repair of boilers, burners, and accessories, utilizing knowledge of steam and hot water theory, pipe fitting, and mechanical layouts.
- Familiar with all forms of flame safeguards and the use of VOM's and other troubleshooting tools.
- Conduct calibration, repair, and adjustment of associated controls.
- Perform preventative maintenance, site surveys, replacement, and modifications to customer's equipment.
- Assist in installations and start-up of newly installed boilers and burners.
- Prepare for new equipment commissioning and repairs by examining equipment, anticipating difficulties, gathering materials, and coordinating on-site work.

GENERAL REQUIREMENTS

- A positive attitude and desire to be part of a winning team.
- Ability to follow schematics, piping diagrams, and blueprints.
- Occasional travel to out of state customer sites.
- Responsible for ensuring customer satisfaction.
- Identify, analyze, diagnose, and repair systems and products at customer's location.
- Flexibility to work overtime/weekends as necessary.
- Follow all company safety policies and procedures.
- Participation in on-going training to enhance knowledge and skills.
- Keep current on the installation, operation, service, and repair of represented products.
- Minimum of five years of mechanical work experience.

COMMUNICATION & ORGANIZATIONAL SKILLS

- Document work by completing daily paperwork on each job.
- Ability to read and comprehend simple instructions, short correspondence, and memos.
- Determine parts to order for repairs and timeliness of need.
- Maintain inventory of required supplies and tools on company supplied service vehicle.
- Communicate sales leads to Sales Department.
- Effectively present information in one-on-one and small group situations to customers, and other employees.

MATHEMATICAL SKILLS

- Ability to add, subtract, multiply, and divide in all units of measure including rate, ratio, and percentage.

REASONING ABILITY

- Ability to define problems, collect data, establish facts, and draw valid conclusions.
- Interpret an extensive variety of technical instructions in mathematical or diagram form and deal with several abstract and concrete variables.

EDUCATION, CERTIFICATES, LICENSES, REGISTRATIONS

- Valid driver's license: required
- High school diploma: required
- Minimum of five years of mechanical work experience: required
- License (e.g. Boiler Operator, Gas Installer, etc.): preferred
- Certifications or vocational or technical training: preferred

PHYSICAL REQUIREMENTS

- Full mobility is required, including the ability to use hands to finger, handle, and feel.
- Ability to crawl into confined spaces.
- The employee must be able to lift and/or move up to 100 pounds.
- Ability to climb ladders and scaffolds.
- Have specific vision abilities that include close vision, distance vision, color vision, peripheral vision, depth perception, and ability to adjust focus.
